## ## Tech Stack

- **Flutter SDK**: 3.0+
- **State Management**: Provider
- **Local Storage**: SharedPreferences
- **Charts**: fl\_chart
- **Icons**: flutter\_svg

## ## Getting Started

### ### Prerequisites

- Flutter SDK 3.0 or higher
- Dart 3.0 or higher
- Android Studio / VS Code
- Android/iOS emulator or physical device

### ### Installation

## # MoneyQuest - Gamified Personal Finance Tracker

### 1. Clone the repository

```
```bash
git clone https://github.com/yourusername/moneyquest.git
cd moneyquest
```
```

### 2. Install dependencies

```
```bash
flutter pub get
```
```

### 3. Run the app

```
```bash
flutter run
```
```

## ## Key Features Explained

### ### 1. Expense Tracking

- Add expenses with amount, category, date, and notes
- Categories include Food, Transport, Shopping, Bills, Entertainment, and Others
- View expense history with sorting and filtering

### ### 2. Gamification

- **\*\*XP System\*\***: Earn experience points for logging expenses
- **\*\*Levels\*\***: Progress through levels based on financial discipline
- **\*\*Badges\*\***: Unlock achievements like "7-Day Streak", "Budget Master", "Savings Warrior"

### ### 3. Budget Management

- Set monthly budgets per category

## # MoneyQuest - Gamified Personal Finance Tracker

- Real-time tracking of spending vs budget
- Visual indicators (green/yellow/red) for budget status

### ### 4. Analytics

- Pie charts showing spending distribution
- Line graphs for spending trends over time
- Monthly comparison reports

## ## Code Highlights

### ### Custom Models with Validation

Each model includes proper validation and JSON serialization for data persistence.

### ### Provider Pattern

Clean state management using Provider for reactive UI updates.

### ### Reusable Widgets

Modular widget architecture for easy maintenance and testing.

### ### Local Data Persistence

All data stored locally using SharedPreferences with proper error handling.

## ## Future Enhancements

- [ ] Cloud sync with Firebase
- [ ] Receipt scanning with OCR
- [ ] Recurring expense automation
- [ ] Multi-currency support
- [ ] Export data to CSV/PDF
- [ ] Social sharing of achievements

# MoneyQuest - Gamified Personal Finance Tracker

## Testing

Run tests with:

```
```bash
```

```
flutter test
```

```
```
```
